Dear Presenters of Poster Presentations 6th Dentisphere.

Here are some important updates we would like to share:

1. Please follow the guidelines for e-posters for presentations as follows (please disregard if you have already submitted files that comply with these guidelines).
2. The poster should be prepared in portrait orientation (height: 1920 pixels, width: 1080 pixels). However, when saving the file to your flash drive, kindly ensure that it is rotated to landscape orientation.
3. The poster should include a title, names of the authors and affiliations at the top. It is recommended to include a small recent photo of the presenter in the top right-corner of the poster. The poster file should be image files either JPEG or PNG format.
4. Please name your poster file using the designated code of your presentation followed by your surname. (e.g. PL-01_Restika.jpeg. is for presenter named Restika, with a designated presentation number 1. PL for category dentist/lecture/magister/doctor, and PS for category Student/Undergraduate)
5. Please bring the e-poster file to the symposium on a flash drive as a backup.
6. Please keep the poster clear and concise, avoiding overcrowding with excessive text. There are no restrictions on font type and size for poster presentations.
7. The poster presentation will be performed in front of the LED-TV screen at a designated time. Please make sure to stand at your poster 10 minutes before your presentation time. The chairs will visit your poster to start your presentation.
8. Content of poster presentation
 - a. Research (Introduction, Materials and Methods, Results, Discussion, Conclusion and References)
 - b. Case Report (Introduction, Case, Case Management, Discussion, Conclusion and References)
9. Please submit your e-Poster for your presentation as per the deadline on May 29, 2026, through the Google Drive link that will be provided by the committee from email.
10. Schedule information regarding the room will be sent 7 days before the event via email.

e-Poster template example :

1. Code of your presentation
2. The poster should include a title, names of the authors and affiliations at the top. It is recommended to include a small recent photo of the presenter in the top right-corner of the poster.
3. Adjust the content of the poster presentation (Research or case report)
4. The poster should be prepared in portrait orientation (height: 1920 pixels, width: 1080 pixels).

Thank you
